

FOREX Trades

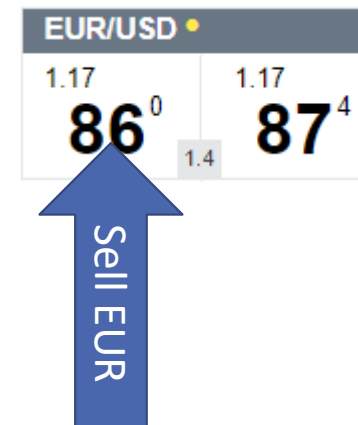

Basic Idea:

A Currency appreciates (increase in value) / depreciates (decrease in value) in relation to another currency.

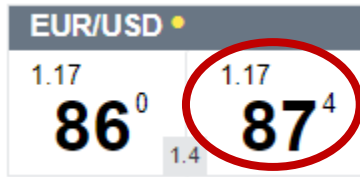

Scenario 1: EUR is expected to **appreciate** relative to USD

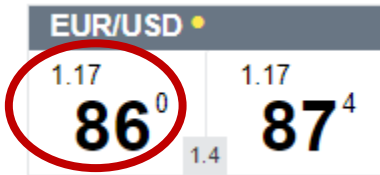

Scenario 2: EUR is expected to **depreciate** relative to USD

Vocabulary EUR/USD

Buy EUR == LONG position (EUR) == Sell USD == SHORT position (USD)

Sell EUR == SHORT position (EUR) == Buy USD == LONG position (USD)

No matter which position you have, don't forget to close the position (reverse Transaction)!
